

Your Cats Are Members Of Your Family, So We Treat Them Like They're Members Of Ours.

For the life and health of your cat, an ounce of prevention can make all the difference in the world. Proper vaccination and testing is vital to any long-term health program. We offer kitten, adult, and senior cat tailored early detection programs. These individualized programs vary with your cat's age, weight, breed, lifestyle and travel habits.

A wealth of information about your cat can be determined with just a few drops of blood. Obtaining a "baseline" of organ function can be an invaluable reference. For senior patients we can monitor organ function, check responses to medications and therapies, and detect disease before symptoms appear. From the start of your cat's life, through the senior years, you can count on us to provide excellent life-long medical care.

Dr. Simon and the staff are wonderful. They took really good care of my cat. He was recently diagnosed with diabetes and Dr. Simon took the time to fully explain everything to me. They are very understanding and supportive and I am so happy that I've found a new vet!

- Google Review

Welcome to The Cat Doctors

You can be assured that every aspect of your cat's needs will be taken care of with the highest level of compassionate veterinary care. Everything at The Cat Doctors has been specifically designed for the care of cats and only cats.

Our exam rooms are designed to make your cat feel more at home than at the veterinarian. They are smaller than the rooms designed for dogs and are equipped with home-style furnishings rather than steel tables. Our goal is to keep your cat as calm and comfortable as possible.

Outstanding Care for Every Cat and Every Client, Every Day

Dr. Welborn and Dr. Lassett are board certified in feline practice. Dr. Simon and Dr. Vaughn together have over 25 years of experience caring for cats. Our hospital has been accredited by the **American Animal Hospital Association**, which demonstrates our commitment to the highest standards of veterinary care.

If Your Cat Requires Surgery

We offer the most advanced surgical techniques and technology. All patients are carefully screened for safety, and anesthetics are specifically tailored to your cat. Surgical vetting, fully-trained veterinary and technical staff, board certified surgeon available for consultation, advanced sterilization techniques, heated surgery surfaces for greater comfort, ECG, blood pressure, respiratory and oxygen saturation monitors, the safest, most efficient state-of-the-art procedures for your cat and intensive after surgery care.

Dental Care

Regular professional dental cleaning is important. We use modern and safe ultrasound to clean each tooth thoroughly – above and below the gum line. Dental technicians polish teeth to create a smooth, lustrous tooth surface more resistant to plaque buildup. Fluoride treatments help strengthen enamel and reduce tooth sensitivity. A sealant is also applied to further reduce plaque accumulation. Advanced dentistry is also available with dental x-rays and specialized equipment.

"I absolutely LOVE this place!!! They are such an amazing and caring staff! The place is the cleanest vet office I've ever been to and will never go anywhere else as long as we live in the Tampa area! I was in and out in about 20-25 minutes because they are so punctual. My cat loved them and felt very comfortable based on her rubbing all over them despite her just getting a shot!"

- Brittany D.

Kitty Condo Boarding

Cats are like our children – you feed, nurture and lavish attention on them. Our highly qualified team members do the same when you can't be there. We provide tender loving care (such as brushing and cuddling), and playtime to keep them happy and active.

Cat Friendly Practice

A Cat Friendly Practice creates a safe, low-stress atmosphere for our feline patients, while providing the highest quality standard of care. Our veterinary team has advanced training to perform the health care that cats specifically require with the special attention they need.

Our practice has made the commitment to you and your cat by becoming a Cat Friendly Practice. To learn more go to www.catvets.com.

Grooming & Salon Baths

From baths, brush outs, and other grooming services, we will make your cat feel comfortable and look its best.
